

California OES Weather Threat Briefing

Monday, September 30, 2019
9:00 AM PDT

Day 1: Hazardous travel conditions lingering in areas of Inland Region above 5000-6000 ft due to snow showers. Isolated thunderstorms possible for northern Inland Region today.

National Weather Service
Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

WEATHER KEY POINTS

09/30/19 - 10/06/19

Monday-Wednesday

- Isolated thunderstorms possible across northern portions of Inland Region on Monday.
- Hazardous travel conditions could linger in areas of Inland Region above 5000-6000 ft through Monday due to continuing snow showers, especially in the morning.
- Freezing temperatures remain likely in the higher elevations of the Sierra Nevada mountains, southern Cascades, and a few northern CA valleys again Tuesday morning.
- Elevated fire weather conditions are possible across portions of Southern Region, primarily in Santa Barbara County through Tuesday night due to gusty sundowner winds, and across portions of southwest California Wednesday due to breezy offshore conditions and low humidities.

Thursday-Sunday

- Temperatures warm gradually through the week and will be back to within a few degrees of normal by next weekend
- No significant weather or water related concerns expected through the latter half of the week
